Hizkiyas Bogale Gebregiorgis

Software & AI Engineer | Full-Stack Developer

Addis Ababa, Ethiopia · hizkiyasbogale46@gmail.com · +251 943 349 980 · LinkedIn · addistemari.com

SUMMARY

Software engineer with 2.5+ years of full-stack experience, now focused on building AI-powered products from idea to working MVP. Third-place winner and Tier 1 "AI Trailblazer" awardee at the PM Accelerator program for ClosetAI, an AI personal-stylist app. Founder of Resumae (resumae.pro), a free resume builder. Currently building SmartLease for the Ethiopian Artificial Intelligence Institute's AI Startup Competition while shipping production web apps at Marvels Creative Technologies. Strong in React, Next.js, Node.js and Django, with measurable results: 50% faster load times, 25% higher form completion and a platform scaled to 500+ users in three months and later acquired.

EXPERIENCE

Co-founder & Software Engineer — SmartLease 2026 – Present
Ethiopian Artificial Intelligence Institute (EAII) AI Startup Competition · Addis Ababa

- Building the MVP of SmartLease, an AI-driven leasing startup competing in the EAII national AI Startup Competition.
- Leading the technical build: system architecture, data model, back-end APIs and the AI features at the core of the product.
- Translating user research and competition feedback into a prioritized MVP roadmap.

Full-Stack Developer Intern — ClosetAI 2026
Product Manager Accelerator (PM Accelerator) · Remote

- Built ClosetAI, an AI personal-stylist app: users photograph their clothes into a digital closet and get three AI-generated outfits tailored to occasion, mood and weather, which they can rate, saving the time spent deciding what to wear.
- Collaborated with the team's data scientists on an OpenAI-based RAG pipeline that grounds outfit generation in each user's own wardrobe data, building the application and data layer that feed it.
- Turned the PRD and Figma designs into a full-stack Next.js app (frontend and API routes) with Supabase, Clerk authentication, Cloudflare R2 image storage and Tailwind CSS; designed the database schema. Now in beta.
- Shipped and demoed the MVP with a cross-functional team of PMs, designers and engineers.
- **Third place** overall and awarded **Tier 1: AI Trailblazer**.

Full-Stack Developer (part-time) — Marvels Creative Technologies PLC Mar 2024 – Present
Addis Ababa

- Built HomePath, a mobile-first real-estate listing platform where Addis Ababa property developers list apartments with unit sizes, bedrooms and payment plans.
- Develop Django back ends and React/Next.js front ends with Tailwind CSS for client products.
- Modernized a legacy WordPress site with React and Tailwind CSS, cutting load times by 50%.

Web Developer — Gao Tek Inc. Jan 2024 – Jun 2024
Remote

- Engineered a dynamic contact form and ran A/B tests that raised completion by 25% and overall site conversion by 15%.
- Achieved cross-browser compatibility on 95% of major platforms, increasing form submissions by 30%.
- Built the 15+ page corporate website (WordPress, Elementor) and optimized assets with the content team, improving load times by 35% and reducing bounce rate.

PROJECTS

Resumae — Free Resume Builder (Founder)
resumae.pro

- Built Resumae, a free web-based resume builder for job seekers, now at go-to-market stage with beta testers.
- Shipped an application-autofill feature that lets users complete repetitive job-application forms in seconds instead of retyping the same details.

Vast Expo — Machinery & Spare-Parts Marketplace

- Built a full-stack marketplace for buying, selling and renting heavy machinery and spare parts.
- Implemented separate sale and rental listing flows with search and category filtering.
- Developed user-side listing management and an admin-controlled moderation dashboard to review and approve posts.

Addis Temari — Study-Abroad Platform (Founder & Lead Engineer) Jul – Sep 2025
addistemari.com

- Architected and deployed a platform that streamlines university search and applications for international students.
- Built a searchable global university database with filters for tuition, location and program.
- Added a personal dashboard for application tracking, document management and automated deadline reminders.
- Grew to 500+ registered users and 50+ daily active users within 3 months; the platform was later acquired by Marvels Creative Technologies.

Clinic Management System Personal project

- Built a responsive React application that digitizes patient records and manages the full clinic workflow.

AWARDS

- **Tier 1: AI Trailblazer** and **3rd place** — Product Manager Accelerator, ClosetAI (2026)
- **Competing startup** — EAII AI Startup Competition, SmartLease (2026)

EDUCATION

BSc in Software Engineering — Mekelle University April 2023
Mekelle, Ethiopia

SKILLS

- **AI & Product:** OpenAI API, RAG pipeline integration, AI feature integration, MVP development, PRD-to-code delivery
- **Frontend:** React, Next.js, React Native, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Framer Motion
- **Backend:** Python, Django, Django REST Framework, Node.js, Express.js
- **Data & APIs:** Supabase, PostgreSQL, database schema design, RESTful APIs, JWT and Clerk authentication
- **Tools & Methods:** Git, Cloudflare R2, Figma-to-code, A/B testing, responsive design, Agile teamwork, WordPress, Elementor
